

City Law Enforcement Technology Priorities: 2018 National Survey

HIGHEST PRIORITY TECHNOLOGY PROJECTS OVER THE NEXT FIVE YEARS

- 1 Mobile data
 - 2 Radio communications
 - 3 Body-worn cameras
 - 4 Smart devices and public safety applications
 - 5 Records management and e-discovery
- 

STAFFING LEVELS SINCE 2017

BUDGET/SPENDING LEVELS SINCE 2017

63% Respondents who stated that their agency is doing an adequate job in providing the staff expertise necessary to implement and maintain new technology solutions, or to process the data generated from the increased use of technology in law enforcement.

DOES YOUR AGENCY UTILIZE BODY-WORN CAMERAS?

- 43%** Yes, all officers have body-worn cameras
 - 10%** Yes, but only some officers have body-worn cameras
 - 14%** No, but we are planning for it
 - 33%** We have no plans to utilize body-worn cameras
- 

28% Local command and control or communications centers that have been upgraded to handle implementation of NG911 by 2020.

37% of city IT departments also handle IT development for city law enforcement agencies.

CITY LAW ENFORCEMENT AGENCIES ARE ALSO INTERESTED IN:

- Funding sources for technology are always an issue
- Artificial intelligence
- Human identification technologies (facial recognition, biometrics)
- Smaller agencies with limited staffing and resources do not have the ability to take advantage of available technologies
- Finding qualified candidates to handle the variety of IT issues in our department
